

# 2018 Days Closed

I know this calendar looks like a lot of time off but I take every possible effort to minimize last minute closures as to avoid disrupting the lives of the families I care for. In planning this calendar, I look at my children's school schedules and upcoming family events. Also, built into this calendar are days that I can use for doctor appointments, days to take care of my own personal business or enjoy a day when my kids have an extra day off from school. I enjoy the families in my care but keep in mind my own family deserves time as well.
